ABOUT US

Mission

MTech Automation enhances global safety and security with the latest technology. Our skilled team, through continuous training, delivers durable security and home automation solutions. Our products integrate security, networking, and safety systems, addressing current needs and allowing for future expansion.

Why US?

At MTech Automation, we provide peace of mind with top-tier home security solutions. Our offerings, from advanced surveillance to access control, protect your home and loved ones. Our expert team continuously explores new technologies, delivering dynamic, user-friendly, and fast services to keep you protected and ahead of security advancements.

Our Team

Our dynamic team of skilled office staff and certified field experts collaborates to ensure seamless service delivery, handling solution design, innovation, finance, and on-site installations. With a dedicated workforce and robust infrastructure, we meet diverse demands within timelines, enabling flawless execution even in remote locations, so you can focus on your family.

OUR SOLUTIONS

Comprehensive surveillance systems using HD CCTV cameras to ensure round-the-clock monitoring.

Smart digital door locks for secure, keyless access control.

Intrusion detection systems designed to prevent, detect, and alert on unauthorized entry.

Full-fledged home automation for seamless control of lighting, climate, entertainment, and more.

Integrated service lifecycle covering consultation, professional installation, and ongoing maintenance.

CCTV SURVEILLANCE

Keep a close eye on the security of your home or office with our CCTV Surveillance system, offering wired, wireless, 4G, or solar-powered options to suit your needs. Choose from IP Dome, Bullet, PTZ, or Varifocal cameras, each boasting up to 45X optical zoom for detailed monitoring. The cameras can be customized with features like audio, night vision, and WDR technology that ensure clear footage be it day or night.

DIGITAL DOOR LOCKS

Improve the security of your home or office with our Digital Door Locks. Featuring Bluetooth connectivity and a sleek Push Pull design, these locks offer the latest access control technology. Enjoy the convenience of fingerprint, RFID, password, or key entry options, ensuring flexibility for every user.

VIDEO DOOR PHONE

Introducing a tech-smart, easy-to-use way of front door surveillance, Our Branded & latest Range has designed a high-performing, all-in-one/Hybrid Video Door phone that is cloud-based and comes with an in-built speaker, microphone, and also a camera with remote mobile app Access. The confluence of these three means that now instead of installing both CCTV cameras and video door phones at their front doors, you can just put our Video Door phone, which does not even require any installation hassles, and enjoy the protection of a safe home.

INTRUSION ALARM SYSTEM

Protect your home and family with our Wireless Intrusion Alarm System that come with mobile app support, receive instant alerts and control your system remotely from anywhere. Whether you're at home, away, or sleeping, customize modes to suit your needs, including out-of-home, sleeping, and SOS modes. Built with tamper-proof features, timers, and battery backup, our alarm system ensures continuous protection even during power outages or attempts to disable it.

VIDEO CONFERENCING SYSTEM

Revolutionize your virtual meetings with our Video Conference System, designed for seamless collaboration and communication. Enjoy features like screen sharing, multiple webcam capabilities, and chat features for interactive meetings. With unlimited HD video recording and dynamic presentation features, capture every detail and engage your audience effectively.

HOME AUTOMATION

Elevate your home with our Home Automation System, seamlessly integrating cutting-edge technology with sleek design. Turn your switches into smart switches that are modular, shockproof, and water-resistant with our Smart Home Lighting System, featuring scheduling, Smart Dimmer, Child Lock, and Fan Speed Control. Stay informed with Live Notifications and automate your motorized curtains with voice commands.

BIOMETRIC SYSTEM AND ACCESS CONTROL

Streamline attendance tracking and access control with our Biometric Time and Attendance System. It comes with face recognition technology and fingerprint/card options, this system offers high accuracy and eliminates time theft.

With a 2.4 TFT color screen and various communication interfaces, managing employee attendance is intuitive and efficient.

Benefit from built-in battery backup and cloud connectivity for enhanced flexibility.

HOME THEATER SYSTEM

Immerse yourself in the ultimate entertainment experience with our Home Theater & Audio Systems, designed to bring the magic of the cinema to the comfort of your living room.

Our Professional home theater systems offer a perfect balance of quality and affordability, boasting high-end sound, surround Sound, and Dolby Digital for unparalleled audio immersion.

The seamless Audio Integration options like the 5.1 or 7.2 Speaker Systems, renowned for their top-rated wireless performance.

COMMERCIAL TV/TOUCH DISPLAY

Experience visual excellence with our Commercial TV / Touch Display. Choose between 4K and Full-HD for stunning clarity.

Enjoy seamless interaction with customizable touch points and responsive touch resolution.

Say goodbye to latency with lightning-fast touch response times. With a raised bezel for durability, HID compatibility, and rigorous testing for resilience, our display ensures reliability in any environment.

SMART INTERACTIVE WHITE BOARD

Enter a world of interactive learning with our Smart Interactive Whiteboard. Enjoy a fluent writing experience and effortless content sharing capabilities, fostering dynamic collaboration in any setting. With a built-in camera and microphone, along with powerful AI functions, enhance your communication and teaching like never before.

Seamlessly integrate educational tools and streamline device management with centralized control.

VEHICLE TRACKING

Stay compliant and secure with our state-of-the-art GPS tracking system, mandatory for all passenger and transport vehicles per government RTO norms.

Built to AIS-140 standards and certified by a government-approved laboratory, our GPS devices offer real-time tracking via a web portal or mobile app, with data sent directly to the government's server.

It includes an emergency SOS switch and provides alerts for ignition, over-speeding, geo-fencing, and more.

PARKING AUTOMATION SOLUTION

Discover the ultimate solution for traffic management with our automatic boom barrier.

It is designed to streamline traffic flow and eliminate the need for tiring manual labour, this corrosion-resistant boom barrier ensures both convenience and security for your premises. Enhance your traffic control system with our reliable and durable automatic boom barrier.

GPS

Discover our Mobile DVR/NVR Solutions, engineered to deliver dependable mobile video surveillance for transit agencies.

Our Mobile Solution HDCVI DVR seamlessly operates across various transportation networks, ensuring comprehensive security coverage.

With the ability to simultaneously record from 4 cameras and provide 2 video output channels, our MCVR/NVR offers unparalleled flexibility.

Featuring advanced options such as built-in motion detection algorithms, alarm triggers, and customizable recording modes.
